Re: New 3-Section Elementary School
At Fisk-Howard School
211 S. Lopez Street
New Orleans, Louisiana 70119
VRA No. 11085

Dear Lee:

As the professional of record for the above referenced school, I confirm that to the best of my knowledge, no Asbestos Containing Building Material (ACBM) was used during construction at Fisk-Howard Elementary School. ACBM was prohibited from use per the specifications.

The date of Substantial Completion of Fisk-Howard Elementary School was December 22, 2014.

Yours very truly,

VergesRome Architects, APAC
