

A. Description of overall philosophy:

Morris Jeff Community school provides special education and related services according to the federal mandates of the Individual with Disabilities Act and the regulations of the state of Louisiana. The Individual with Disabilities Education Act (IDEA) of 2004 ensures that all eligible children with a disability who are in need of special education receive a free appropriate public education. IDEA mandates that eligible students receive individualized instruction specially designed to meet the unique needs of the learner. To the maximum extent appropriate, children with disabilities, including children in public or other educational facilities, are to be educated with children who are not disabled. In addition, to the maximum extent appropriate, children with disabilities are to participate with non-disabled peers in both non-academic and extracurricular activities. Unless the individualized education program for the child with disabilities requires some other arrangement, the child is to be educated in the school that they would attend if they were not disabled.

At Morris Jeff Community School all students with disabilities are a part of their grade homeroom class community. Students are provided a continuum of services as per their IEP. Services are provided both inside the classroom and/or in other settings as required by their IEP. The philosophy of MJCS is to ensure that every student with a disability is a part of their grade level, classroom, and school community.

E. Description of how the school plans to provide the continuum of special education placements for students whose IEP placement is outside of the regular education setting

<i>School-based Supports (in-school)</i>			
	Description of Supports within Inclusion	Description of Supports within Resource	Description of Supports within Self-Contained
At MJCS we provide a continuum of services. The supports we have available in each of these various settings are available to all special education students all the time regardless of setting. Although a student's placement may change the supports they need will be provided to them based on what they need per their IEP, not solely based on the location/setting of the services.
