

What is ThriveKids?

Working together with families, schools, and healthcare providers across Louisiana, ThriveKids connects kids and teens with the care and resources they need to grow up healthy – and **thrive!**

Services available with ThriveKids:

- School-based mental health counseling
- Virtual counseling with ThriveKids outpatient team
- Psychiatric evaluations (Depression, anxiety, ADHD, behavior challenges, and other concerns)
- Medication management
- Primary medical care
- Specialty medical care and services
- Immunizations

Benefits of enrolling in ThriveKids:

- All services are free and voluntary
- ThriveKids team works to remove barriers to care (transportation, language, and financial)
- Allows the ThriveKids care coordination team to access the child's electronic medical record and collaborate with the caregiver on identified needs
- Opens communication between families, the ThriveKids team, school nurses, school social workers, and healthcare providers to ensure continuity of care
- Families can access care consultations during natural disasters and prolonged school closures
